A close-up photograph of the rear right side of a dark grey Renault car. The focus is on the red taillight assembly, which is heavily damaged. The clear plastic lens is cracked and has a large section missing, revealing a dark interior. The surrounding body panels are also scratched and scuffed. To the right of the taillight, the word "RENAULT" is embossed in silver letters on the trunk lid. The car is parked on a light-colored, possibly snowy or sandy, surface.

A digital instrument cluster with orange backlighting. The top line displays the odometer reading '207007' in large digits, with 'KM' centered below it. The bottom line displays the trip meter reading '1729' in large digits. On the left side, there is a fuel pump icon and a vertical bar representing the fuel level. On the right side, there is a temperature gauge icon and a vertical bar representing the engine temperature. The entire display is framed by a series of small rectangular segments on both sides.
